

PATTAYA

THE INDEED CONDO

GRAND P PROPERTY

WHO WE ARE

Founded in 2020, Grand P Property was created with one clear vision: to develop residential spaces that truly reflect the way people live today.

Under *The Indeed Condo* brand, our journey began in Chonburi Province and has since expanded across Bangkok and its surrounding regions. To date, we have successfully delivered *more than 5,000 residential units*, each shaped by our commitment to thoughtful design, quality construction, and accessible living.

The Indeed was built on a simple belief that *exceptional living shouldn't come at an exceptional price*. Thoughtfully designed, carefully crafted, and genuinely accessible — this is the standard we hold ourselves to, and the promise we deliver.

THE INDEED CONDO PATTAYA

NOT EVERY ESCAPE HAS TO BE TEMPORARY.

Some homes are made to live in. Others are made to escape to. The Indeed Condo Pattaya is where resort-inspired living becomes your everyday reality — conceived for those who believe that home should feel like the finest escape, not occasionally, but every single day.

Just a short walk from the shimmering shores of Jomtien Beach, a sweeping pool stretches the full length of all three buildings — the kind of centrepiece that turns an ordinary afternoon into something worth remembering. Lush greenery frames every view, and the light shifts beautifully throughout the day — golden in the morning, deep and warm by evening over the Gulf of Thailand. A world away from the city, without ever leaving it.

This is not just a home by the sea. This is your *permanent vacation*.
